"The Highest Bidder." The presentation of "The Highest Bidder" at the National Theater next Monday evening the National Theater next Monday evening will undoubtedly be a theatrical event of more than usual importance. It will introduce to play-goers the first traveling company from the Lyccium Theater, New York, a house which has achieved a high reputation for the excellence of its productions, and will also present, as a star, Mr. E. H. Sothern, as on of the late "Ned" Sothern, or "Dundreary" fame, and a young man who met with extraordinary success in "The Highest Bidder" at the Lyccium, where it ran for over one hundred nights. Mr. Sothern's performance in 'One of Ont Girls," last season, is "still pleasantly remembered, Both play and star are enthusiastically spoken of by the critics.

Saloon Keepers Troubled. To-day will be looked upon as an important one by the saloon keepers, as the commissioners have announced it as the time when they will issue the first of the barroom licenses. They assent the right to limit the number of whisky places in any particular locality on the grounds that dispropritionate numbers of such places are in every way detrimental. The rule requiring a majority of signers of both property owners and residents will be adhered to. Children having objections to barrooms must file their protests at once. It is also decided that persons convicted only once for violating the Sunday law will not get a license. ers have announced it as the time when they

Among the Tribes of Mexico. At the Travel Club Monday evening, Prof. Otis T. Mason entertained the mem-bers and their friends present with a very bers and their friends present with a very interesting discourse on the evidences of progress and the development of civilization among the savage tribes of Mexico and the American continent. Referring to the temples built by the Aztees, and the rude art of the people before the conquest, the professor exhibited a number of large photographs, giving an admirable illustration of the skill and proficiency attained by a savage people isolated from the rest of mankind. The speaker made excellent suggestions of methods of study while traveling, and of obtaining and preserving knowledge of countries visited, advising the collecting of certain articles of use and adornment, and preserving with them explanation of structure and the uses to which they were applied. In the musical programme, Mrs. Caperton sang "Spring Tide," and in answer to a persistent encore gave "In the Morning," Mrs. Davis presiding at the plano.

Satisfied With the Motor. The party that went to Philadelphia to witness the working of the street car electric motor, with the exception of one, electric motor, with the exception of one, returned to the city vesterday morning. It was composed of Commissioners Webb, Wheatley, and Ludiow, and representatives of the street car lines in this city, among them being Messra. Hurt and Glover, of the Washington and Georgetown, and Messra. Pearson and Wilson, of the Metropolitan. The commissioners express themselves as being very much pleased with the motor, and it is probable that they will make some favorable allusion to it in their report to Congress. As appounced in the REPUBLICAN some

time ago, an experimental motor car will be placed on the Metropolitan Company's line during the coming month. # PROTECT OUR BREAD.

The machinery of the law cannot be put at work too speedily or too vigorously against the wholesale adulteration of the things we cat. Both the health and the pockets of the people demand

There is no article of food in general use more wickedly adulterated than the lower grades of baking powder.

For raising bread, biscuit or other food only the very best and purest baking powder should be employed. The use of the ordinary cream of tartar, or of baking powders containing lime, alum and phosphates, carries deleterious ingredients into the food to the prejudice of the life and health of the consumer.

The sale of adulterated baking powders has been prohibited by statute in several localities. It will be in the interests of the public health when their sale is made a misdemeanor everywhere, and the penalties of the law are rigidly enforced.

The ordinary baking powder contains either lime, which, introduced into the system in too free quantities, causes serious disorders of the kidneys; alum, a corrosive poison, or lime phosphates, which are condemned by physicians as deleterious in their effect when taken under certain physical conditions. The Royal is the only baking powder on the market that is free from lime, alum and phosphates, and absolutely pure.

The absolute purity of the Royal Baking Powder makes it pre-eminently the most useful and wholesome leavening agent known. Containing no lime, alum, phosphate or other impurity, it leaves no alkaline or other residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake, that are perfectly digestible and wholesome whether hot or cold, fresh or stale. Its leavening power has been determined the highest whenever tested by official authority, and all chemists and writers on food hygiene commend it for its sterling qualities.
